PROFILE SUMMARY

Motivated IT student seeking an internship to apply skills in software development and problem-solving. Eager to contribute to real-world projects while gaining hands-on experience in a professional environment.

WORK EXPERIENCE

Movie catalog

- Built a simple movie catalog that allows users to browse and search films.
- Designed an interactive UI using HTML, CSS, and JavaScript.
- Implemented client-side data handling to simulate CRUD operations.
- Added search and filter features for smoother user experience.
- Focused on responsive design and clean layout.

MFMS · Materials Flow Management System

- Developed a web-based system to track material inventory and movement.
- Implemented role-based approvals for material requests and updates.
- Designed and connected front-end interfaces to a MySQL database using PHP.

Note App · Task & Reminder Manager

- Built an Android note and task management app with reminders.
- Used Java and SQLite for offline data storage and handling.
- Implemented RecyclerView for smooth and efficient list display.
- Designed clean and user-friendly UI layouts in XML.
- Added features for creating, editing, and deleting notes and tasks.
